## GIRL TELLS ACCUSED DOCTOR'S LOVE STORY Bride Collapses as Alleged Poisoner Goes to Jail COWARDICE OF VOLTURNO CREW CAUSED DEATH OF PASSENGERS

### CHAUFFEUR HELD FOR ACCIDENT TO GIRL

Says He Saw Young Woman, but  
Thought She Would Stop  
for Machine.

W. B. Blevins, the chauffeur who ran the car in which Miss Mary Hadden, No. 17 West Main street, Sunday afternoon, was placed in custody last Monday morning after an accident, was today taken to the city jail on a charge of driving recklessly.

Miss Hadden, who is 17 years old, was taken to the city hospital after the accident, and is now recovering from her injuries.

There has been no word as yet from the police as to whether the chauffeur is guilty of the accident.

Miss Hadden's father, Mr. J. H. Hadden, is a well-known citizen of Atlanta.

She was driving the car alone at the time of the accident.

The chauffeur was seen by several witnesses at the time of the accident.

He was driving the car at a high rate of speed.

He was seen to swerve suddenly to the left at the time of the accident.

He was seen to lose control of the car at the time of the accident.

He was seen to collide with a car driven by a woman at the time of the accident.

He was seen to get out of the car and run away at the time of the accident.

He was seen to be in a state of panic at the time of the accident.

He was seen to be in a state of confusion at the time of the accident.

He was seen to be in a state of distress at the time of the accident.

### POWERS OF DICTATOR SEIZED BY HUERTA

Powers Prepare to Act as Mexi-  
can President Overthrows Con-  
stitution in Proclamation.

Special Cable to The Atlanta Georgian.  
MEXICO CITY, Oct. 12.—Venustiano Carranza, provisional President, today proclaimed himself dictator of Mexico and overrode the constitution.

He issued a decree announcing that he was assuming all the powers of Congress relating to war, finance and the domestic affairs of the nation.

He says he will permit the Department of Justice to exercise its usual functions "unless it interferes with his duties," which will be issued from time to time.

The constitutional convention of members of Congress from areas is dissolved by the decree, and the decree provides that he alone is the supreme power in Mexico.

Quick Action Expected.  
He declares himself to make a free report of his actions to the next Congress, to be elected on October 26.

All of today's papers carry dispatches from Vera Cruz stating that Carranza's forces have been seen in the Gulf of Mexico, and the belief is growing that quick and decisive action is to be taken by the powers in the present crisis.

The Government is arranging to rush the trial of the accused dictator, but this is expected to be a farce, in view of Carranza's decree, which virtually gave the Department of Justice must do as he says.

U. S. Warns Huerta  
Not to Harm Fees.  
WASHINGTON, Oct. 12.—The United States today served notice on President Huerta, through the Embassy at Mexico City, that the Mexican Government must protect the impartial justice, and that this Government will continue to do so, unless extreme measures against the present situation.

He is a right man for the American Republic, where the accident occurred.

That more than 100 persons, the bulk of the passengers, were saved was due to the heroic behavior of the Volturmo captain, Captain Thomas Ives.

These facts were learned here this afternoon on the arrival of the Cunard liner *Campania*, the first ship to pick up the Volturmo's crew and push to her anchor.

The charge of Walter Truesdale, a steamer passenger, who was picked up by the *Campania*, that members of the crew fought for places in the lifeboats until Captain Ives drew his revolver was borne out by other facts.

Twenty-five members of the crew of 52 were saved. Those of those who perished at sea were women and children.

Truesdale said six sailors were killed while fighting the flames. The rest died as a result of their own cowardice.

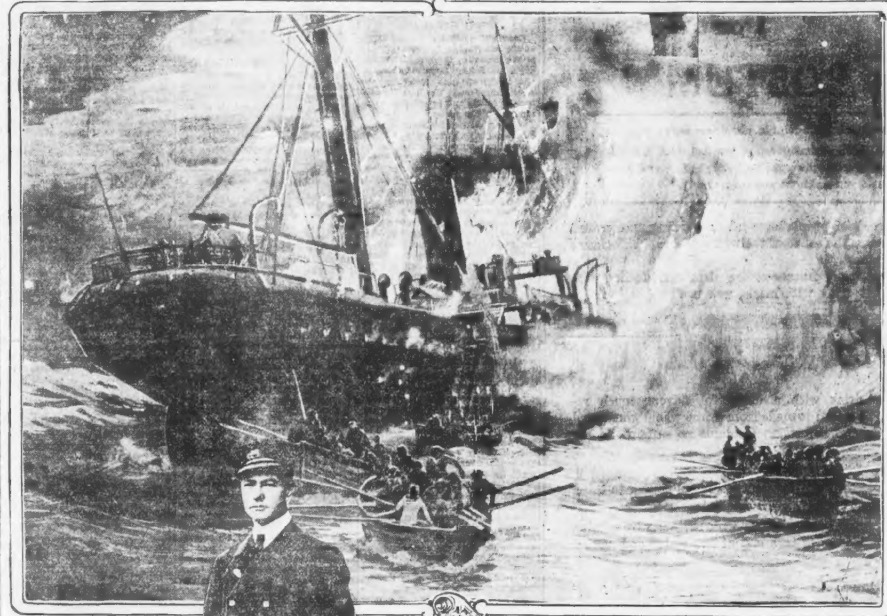

Sailors in Wild Panic.  
Most of the women on the Volturmo were Germans and Belgians. When they saw that the ship was doomed they became panic-stricken. After Captain Ives had given orders to lower the boats and had instructed his officers to save the women and children, some crew for fear the cowardly women made a dash for the boats and a fatal one.

The last died at his father's side, his right following a terrible head-on collision.

### AUTO TRIPS OF BARRON WITH GIRL PROBED

Physician Declared to Have Been  
Out Riding as Wife Lay on  
Deathbed.

By a Staff Correspondent.  
GRIFFIN, GA., Oct. 12.—Investigation into the Barron poison mystery took a sharp turn Monday morning into the courtship of Dr. Cary A. Barron and Miss Clara Wheeler, of Conyers, his bride of a week, which the authorities declare is as mysterious as the strange death of the young physician's first wife, whom he is accused of poisoning.

This inquiry is being conducted in Henry and Rockdale Counties with the view of obtaining evidence to refute statements of Dr. Barron that he never made love to Miss Wheeler prior to the death of his wife and his hasty marriage to the Conyers girl the day following the funeral.

While the accused physician is held that he was never in the company of Miss Wheeler but was in the city after he met her the first of September, relatives of the dead wife and the authorities are in possession of positive proof, they say, that he was out riding with her the whole of Friday afternoon a week ago while his wife lay dying with convulsions.

Efforts also are being made to verify information that Dr. Barron took the girl to a show in Conyers that same night or afternoon before his return to the bedside of his wife, relative of the dead woman and a few days later as the doctor's story that he had never made love to Miss Wheeler and did not meet her at the time of his marriage.

After Secret Meetings.  
They declare there must have been clandestine meetings and the whole of the two counties is being searched for persons who may have seen them together. Sheriff A. C. Rowell, of Henry County, where Dr. Barron is held, in jail, has received numerous reports concerning the accused man's conduct. So wrought up are the people in this section over the tragedy that everyone who chances to hear a rumor immediately reports it to the sheriff.

Sherriff Rowell late Sunday morning drove over miles in an automobile to the dam of the Central Georgia Power Company near Jackson. Miss Glendon denied there was any love-making between Dr. Barron and Miss Wheeler on this trip, and declared the physician paid no attention whatever to the girl.

She admitted, however, that Miss Wheeler was very beautiful.

#### Ship's Owners Fix Death List at 144

NEW YORK, Oct. 13.—Cable dispatches received by officials of the Uranium line today indicated that 144 persons perished in the Vulture disaster. There were 483 passengers aboard and 25 of the crew were saved, leaving 78 passengers and 58 of the crew unaccounted for.

#### Special Cable to The Atlanta Georgian.

PORTLAND, WALES, Oct. 13.—As the passengers of the burned Uranium liner Vulture could have been saved but for the cowardice of the crew.

That more than 140 persons, the bulk of the passengers, were saved by the heroic behavior of the Vulture's captain, Captain Thomas Inch.

These facts were learned here this afternoon on the arrival of the Canard steamer, the first ship to reach the Vulture's aid and render her assistance. The Canard was stayed several hours because of a storm that was raging in the Atlantic.

The charge of Walter Trintfleisch, a German passenger, who was picked up by the Canard, that members of the crew fought for places in the lifeboats until Captain Inch drew his pistol was borne out by the facts. Twenty-five members of the crew did die. That, of those who survived 48 were women and children. Trintfleisch said sailors were killed while fighting the flames. The result was a result of their own cowardice.

#### Sailors in Wild Panic.

Four of the seamen on the Vulture were Germans and Belgians. When they saw that the ship was doomed, they became panic-stricken. After Captain Inch had given orders to leave the boat and had instructed his officers to save what women and children were aboard for first, the cowardly seamen made a dash for the boats and scrambled in. The officers used their belts, but were overpowered. When Captain Inch saw the performance reported in the second story, he drew his revolver and threatened to kill the first sailor who left without the passengers.

#### TALK TO A SCHOOL BOY IN ORDER WOMEN

Radical Reforms Asked in Big  
Meeting to Change Present  
Deplorable Conditions.

Indorsement of a special school tax plan and the inauguration of a campaign to much public sentiment in Atlanta to demand an improvement of public school conditions were the features of the meeting of the Federation of Women's Clubs at the Atlanta Woman's Club Building Monday morning.

After a general discussion of the poor buildings and the overcrowded conditions of Atlanta's schools, Mrs. J. K. Otley offered a resolution setting forth a definite plan of action. Among other things the resolutions, which were unanimously adopted, are:

"Keep Up on Needs."

"Because children in these schools are our children and as the schools are so well the future of these children is in our hands."

"Because the City Council of Atlanta has formally invoked the aid of women citizens of Atlanta in this department alone of the city's life by establishing the Board of Lady Visitors of the public schools, be it"

"Resolved, That a look-out committee be appointed by the president of the City Federation of Women's Clubs consisting of a number of women from each ward of the city to keep in touch with their own schools and report upon them from time to time."

"Suggesting a line of work for the look-out committee, the resolution continue:

"The need of more space for the proper seating and distribution of Atlanta's state of school children, both white and colored."

"Urges Special Tax."

"The power to demand increasing quality of personal fitness and professional equipment in our growing corps of teachers."

"The resolutions suggest a special school tax and urge that the Board of Education or whatever body has charge of the schools, be left free from interference from Council and all other official bodies. "Then held the board responsible for the results, the resolutions end."

The meeting opened with the reading of a letter from Walter R. Daley, president of the Board of Education, urging a special school tax for the normal maintenance of schools and a sufficient bond issue for permanent improvements.

Mrs. Hamilton Douglas commented that no permanent solution of the problem could be expected until the amount of money was increased, but she urged that for the immediate future the meeting petition Council to the young women of our city who are striving to fit themselves for work."

A resolution, adopted for such a petition was signed by unanimous vote.

Indiana Mayor's Plan.

The meeting then considered the Girls' Night School. The need for improved conditions was referred to the look-out committee.

It was suggested that for immediate relief the plan of Mayor James G. Woodward to make new school districts be enforced. A resolution is that she had been informed by a sign of the plan of Mayor James G. Woodward to make new school districts be enforced. #### ATTACK ON SLEEPER MADE IN COURT

Citizens Declare Frank Juror Has  
Not Been in Town Since  
Trial's Close.

Renewing their attack upon Juror A. H. Hendrix, one of the twelve men who convicted Leo M. Frank of the murder of Mary Phagan, the attorneys for the defense Monday obtained affidavits from J. J. Nunnally and W. L. Ricker, of Monroe, Ga., in which the two men reiterated their charges of bias and prejudice against Hendrix and repudiated his statement that he uttered his denunciation of Frank after and not before the trial.

Nunnally and Ricker asserted in their second affidavits that as far as they knew Hendrix had not been in Monroe since the trial of Frank, and that, therefore, they could not have overheard him in his violent outbursts. When the verdict was returned, they said that to the best of their recollection Hendrix's bitter attack on Frank and the denunciation of his lawyer in Frank's guilt took place some time in June.

"They said they had noticed in the public papers Hendrix's admission that he had made denunciations remarks against Frank but that they had been uttered after the evidence was in and the verdict returned. That they swore, was false, as they had not seen Hendrix since the trial."

Charles Weaver To.

Affidavits also have been obtained from other leading citizens of Monroe asserting that Hendrix was not in Monroe after the trial of Frank. Without exception, they assert that they were entirely reliable and trustworthy and of good character. Among those who signed the character affidavits were R. C. Knight, former ordinary of the county; L. G. Nowell, Solicitor of the City Court of Monroe; Otto Roberts, a prominent attorney; J. B. Shilbirt, Clerk of the City Court; and Alonzo C. Stone, Justice of the City Court.

Hendrix is standing by his original declaration that he gave no expression of belief in Frank's guilt before the trial. He admits having made the remarks but insists that they were made after the jury had been discharged from duty. He has been in conference with Solicitor Dancer and it is anticipated that a determined fight will be made to establish his fairness and lack of prejudice in the consideration of the evidence.

#### PHYSICIAN DECLARES HE WILL LIVE ONLY TO CLEAR NAME OF CRIME

BY A STAFF CORRESPONDENT.

M'DONOUGH, GA., Oct. 13.—Sitting on the side of his bunk in the Henry County jail, Dr. Cary A. Barron, accused of poisoning his wife that he might wed another, Monday gave to The Georgian his first statement of the incidents that have brought against him a charge of murder.

Calmly and coolly, the young physician protested his innocence, and smilingly declared the case against him would fall and that he would be free within less than a week. In the same calm tones, he gave a remarkable recital of his reason for hastily marrying Miss Cora Wheeler, of Oconee, Rockdale County, last Tuesday, the day following the burial of his wife in Liberty Hill cemetery, Pike County, and of an instantaneously born love for the new wife.

He declared that he had never loved or even thought of loving Miss Wheeler until after the death of his wife. Now his lovers' story. It was a love that came after marriage, he said. He loved his first wife and still loves and cherishes her memory, also was his declaration.

He had known Miss Wheeler but a few weeks, since the first part of September, and had seen her but a few times. He had never spoken to her of love, he said.

On the day his wife was buried, he drove to Conyers in an automobile and asked Miss Wheeler to be his wife, and she consented.

He had the ceremony performed the next day, he said, for the simple reason that he wanted a new mother for his four little children, and because he wished to continue them under his care without even a temporary break.

"I am innocent of the charge of poisoning my wife. I am satisfied that no poison will be found, and that I'll be vindicated and restored to my normal and happy state of mind. I'm simply a victim of strange circumstances."

"I loved my wife better than anything in the world and would not have harmed her for my life. She died of natural causes. Her illness started with congestion of the stomach and liver, and then developed complications that resulted in uremic poisoning or kidney trouble."

Tried to Save Wife.

"I did all I could to save her life and relieve her suffering. I had no reason to kill her—I had all the reason to wish her to live and care for my little children. My father, Dr. J. M. P. Barron, and Dr. Smith of McDonough, were present and could have detected it if I had been poisoning my wife."

"As to Miss Wheeler, I met her a short time ago, about the first of September, at Kelly's Church near my home of White House. I paid her no attention at that time, and saw her only once or twice afterward."

"I never struck one word of love to her. Of course, I liked her, as she seemed to be such a nice girl, but this was all."

"When my wife died I thought of the welfare of my children and decided to marry again. I thought, in order that they might have a mother and live, and then I decided to marry her. Of course, I liked her, as she seemed to be such a nice girl, but this was all."

**Crowds Call at Jail.**

Crowds of curious sightseers called at the jail Sunday to get a glimpse of the prisoner. Interest in Melton and Henry county is intense, and groups of men stood in the streets throughout the day, discussing the details and speculating as to the guilt of the doctor.

A report reached McDonough Monday morning that residents of White House, the picturesque little settlement seven miles from here where Dr. Barron and his first wife lived after moving from Milner last spring.

One said it veered south and after the flames were spreading rapidly through the hull. The *Garman* was 10 miles away at the time. Captain Hart gave orders to crowd on all steam. Despite the heavy seas which were running at the time and a heavy gale which was blowing, we made the 10 miles in about four hours.

"When we arrived within sight of the *Volturno* we saw clouds of smoke rising from the ship. When we got close enough, we could see flames pouring from her ventilators. It seemed that the entire inside of the hull was on fire, and so sets of sails were hoisted on both long and short sides, showing that lifeboats had been lowered. # COUNSEL FOR ACCUSED PHYSICIAN BEGS PUBLIC TO SUSPEND

## DR. BARRON DECLARES HE TOOK BRIDE TO CARE FOR CHILDREN

Dr. Cary A. Barron Monday in his cell at McDonough, gave to The Georgian the following remarkable explanation of his marriage the day after the death of the wife he is accused of having poisoned:

I never spoke a word of love to my present bride while my late wife lived. When my wife died I thought of the welfare of my children and decided to marry again in order that they might have a mother and might be under my direct care. As Miss Wheeler had impressed me favorably I thought she would make a good mother for the children, and after the funeral I drove to Conyers and asked her if she would marry me. She said she would, declaring at the same time that she would love me, and I saw no reason under the circumstances for waiting longer.

I had never loved Miss Wheeler before the death of my wife, but I loved her from the moment we were married. I have grown to love her more and more. My only thought now is to clear my name and live for her and my little children.

Continued From Page 1.

the awful stigma and the fear for her and my small little children.

I call her to be separated from me. It pains me to do so.

As to the charge that he married an Atlanta girl four years ago while he was attending a medical college and while his wife was with her people in Miller, Dr. Barron would not say. "Neither would he make any statement as to his alleged wife's name, with a married woman last January and the ensuing separation from his wife."

I have nothing whatever to say, was his last comment.

**Bride Collapses.**

I wanted to be charged that her husband of a week, poisoned his first wife, pretty Dr. Cary A. Barron, who became the bride of Dr. Barron the day following the death of his wife, in a state of nervous collapse.

The bride collapsed in a stupor at Sunday at the home of her sister, Mrs. Mary Hamilton, near Buckhead Church.

At intervals she became delirious, in some moments the stricken girl cried out:

"Take me to him, I'll take me to him."

Again she would plead:

"Let me save him. I must save him, because I love him."

Close to the bedside the mother of the girl, Mrs. Maxine Wheeler, a widow, a well-to-do and highly respected resident of Buckhead, sat and wept throughout the day and would minister to her.

Occasionally at times the mother would give way to her emotions and weep. Mrs. Barron was Miss Clara Wheeler, a native of Georgia, the second daughter, and is a sister of W. A. Wheeler, a prominent member of the family, and another member of her side and sought to comfort her.

Her condition was so serious that she needed the family was at her side.

She continued to hold out her nervous system gave out. Her Monday morning from the Hamilton home were in the effect that she was slowly recovering from the collapse.

**Doctor Restless in Cell.**

Members of the family and friends of the bride are greatly distressed over her condition.

**Asks Calm Judgment.**

Dr. Barron, of Miller, father of the dead woman, Monday is an attorney at law in his native city. Dr. Barron administered last poison.

The case against Dr. Barron is somewhat strange, for the reason that he never loved his wife. The fact that he married again the day after her death was buried under the fact that he wanted to get her out of the way. He was simply in such a big hurry that he bungled the whole business.

Radical Reforms Asked in Big Meeting to Change Present Deploable Conditions.

Improvement of a special school tax and the inauguration of a campaign to mold public sentiment in Atlanta to demand an improvement of public school conditions were the features of the meeting of the Federation of Women's Clubs at the Atlanta Woman's Club Building Monday morning.

After a general discussion of the poor buildings and the overcrowded conditions of Atlanta's schools Mrs. J. K. Oakes offered a resolution setting forth a definite plan of action. Among other things the resolution which was unanimously adopted, are:

# HUERTA SEIZES GOVERNMENT AS DICTATOR

Powers Prepare to Act as Mexican President Overthrows Constitution in Proclamation.

Special Cable to The Atlanta Georgian, MEXICO CITY, Oct. 12.—Victoriano Huerta, provisional President, today proclaimed himself dictator of Mexico and overthrew the constitution.

Huerta issued a decree annulling the constitution of Mexico, and the powers of Congress relating to war, finance and the domestic affairs of the nation. He says he will permit the Department of Justice to exercise the usual functions unless it interferes with the decree, which will be issued from time to time.

The constitutional exemption of members of Congress from arrest is revoked by the decree, and the department proclaims that he alone is the supreme power in Mexico.

He pledges himself to make a report of his actions to the next Congress to be elected on October 28.

All of today's papers carry dispatches from Vera Cruz stating that British warships have been seen in the Gulf of Mexico and that the growing that quick and decisive action is to be taken by the powers in the present crisis.

The Government is struggling to keep the trial of the accused, but this is expected to be a force in view of Huerta's decree, which virtually says the Department of Justice must do as he says. It is expected that the Department of Justice will be forced to resign from office, and that Huerta will be able to appoint a new one.

## BACKACHE IS A DANGER SIGNAL

Kidney Troubles, Bladder Disorders, Rheumatism and Serious Diseases Follow.

There are other symptoms, such as pain in the region of the kidneys, vertigo, dizziness, tired and nervous feeling, weak bladder or urinary troubles, which are just as dangerous for the kidneys. Kidney derangement, if neglected, may develop into the deadly Bright's disease, dropsy or diabetes.

It is not only dangerous, but needful, for you to suffer and judge the fortune of these troubles, for Vicks' promptly aids all such misery.

There is no more effective remedy for kidney, bladder trouble and rheumatism than Vicks', because it reaches the cause. It works right into the kidneys, through the walls and linings, cleans out the clogged up pores, neutralizes and dissolves the poisons, uric acid and waste matter that lodge in the joints and muscles and cause those terrible rheumatic pains, and makes the kidneys filter the poisons from the blood and drives it out of the system.

Three doses of Croscare's a day for a few days is often all that is needed to relieve the worst troubles of rheumatic disease, kidney disorders.

Even old and chronic diseases of other remedies. It is so powerful that it penetrates to the source, to take it without results. An actual package of Croscare's and a trial, and all druggists are ordered to return the purchase money if it should fail in a single day.

M. Atkinson, co-receiver with E. T. Lamb, of the Atlanta, Birmingham and Atlantic Railroad—are it close with the money situation here and judge their statements by their observations.

"Plenty of cotton and good prices for it make money conditions very bright in Georgia that not only are the money banks paying their obligations to the larger institutions, but they even are anticipating the date of their notes in many instances," said "Colonel Peel."

"Good weather through October and November, such as we have had for the last few weeks, will launch Georgia into the smoothest season it has known for many a year."

"Already farmers are paying notes to their supply merchants which are two and three years old. The state should be wiped clean this fall, and that will be an incalculable blessing to Georgia."

"This money flows to the country banks, from them to Atlanta, and from Atlanta to New York, for the city institutions already are paying their obligations in the East."

## A TEN-CENT BOX OF "CASCARETS"

Keeps Your Liver and Bowels Active and You Feel Buggy for Months.

Get a ten-cent box. Put aside just once the Salt, Pitta, Castor Oil or Purgative Waters which merely force a passage through the bowels but do not thoroughly cleanse the system and purify these drainage organs, and have no effect whatever upon the liver and stomach.

Keep your "insides" pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour food and food gases which cause the excess bile from the liver and carry out of the system all the accumulated waste matter and poisons in the bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep, and are pleasant and neat to take. A box from your druggist will cost you only a few cents. Cascarets are sold in every drug store and never have headache, biliousness, "Colic," "Tramp," indigestion, Sour Stomach or Constipated Bowels. ## CHAUFFEUR HELD FOR RUNNING DOWN GIRL

Says He Saw Young Woman, but Thought She Would Stop for Machine.

R. E. Brekin, the chauffeur who ran down and seriously injured Miss Mary Hughes, No. 11 West 11th street, last night, was held in custody Monday morning after an officer had been found by Assistant Chief of Police Jett that he had been driving the car.

Chief Jett's order was not given until late in the afternoon, and on the morning of the accident, Brekin, who is 17 years old, said to live at No. 246 South Ashby street. To the police he admitted that he saw Miss Hughes, but thought that she would stop to let him pass. He stated that he was driving the car when he was brought to the police station by the police. Both parties to give out any statement for publication.

The officers declared the chauffeur that had driven the car given to the young woman's accident. The chauffeur was charged with reckless driving and later released on \$1000 bond. He will be tried Oct. 22.

It was by the long string of automobiles parked along the street, from the police station, that the chauffeur was charged with reckless driving. Assistant Chief of Police Jett, who was on duty Monday, said that he saw the chauffeur driving the car when he was brought to the police station by the police. Both parties to give out any statement for publication.

Of Interest to Women Who Know the Fashions and What Economy Means

A Sale of Dress Trimmings

A sale of dress trimmings! Women who know the fashions know that of all seasons this is one when dresses are to be trimmed. And so the sale takes on an extraordinary meaning. It is a remarkable thing to sell dress trimmings at these reductions right in the face of their season. Included are:

- Embroidered Bands
- Gold Bands and Edges
- Bulgarian Bands and Edges
- Crystal Bands
- Beaded Bands
- Silver Bands and Edges
- Ratine Bands and Edges
- All-over Laces

These all-over laces are 18 inches wide, they are ornamented with beads, embroidery, silver and gold. The colorings and effects are rich and sumptuous for street and evening dresses. Lengths of the trimmings and all-overs are one yard to five yards. Which accounts for the prices—they are odd and short pieces that we will quickly clear away.

The scale of reductions—

Formerly \$1 to \$1.50 a yd., now .49c

Formerly \$2 to \$3.50 a yd., now .89c

Formerly \$4 to \$6 a yd., now \$1.29

## We Are Pleased to Announce Miss Jackson Is Here for the Week Demonstrating Bon Ton Corsets

# POSTUM

A rich, nourishing food-drink, with a delicious, resembling high grade Java. Postum is made from a small per cent of New Orleans molasses. Contains no other drug.

Postum comes in two forms.

**Regular Postum** requires fifteen to twenty cent the rich flavour and food value.

**Instant Postum** requires no boiling, but is in a teaspoonful of the soluble powder in a cup of cream and sugar to taste.

**Drink it instead of Coffee,**

# Hundreds of New Suits Make Their First Bow to the Women of Atlanta

*The Most Impressive Display of Suits We Have Made So Far  
This Season.*

We must lay particular stress upon the quantity of new suits that have just taken their places in the second floor.

It is impressive, and did one stop to reflect on its meaning, it would teach a fine lesson to the woman who has not yet been "suited."

Back of all these hundreds of suits that we will show to-morrow is a fine amount of **confidence**, of confidence in the women of Atlanta and in the styles, the **desirability** of these suits.

We know the suits are right, we know they are such that Atlanta women will want once they are seen!

The suit buyer is now in New York and these are the evidence of his labors.  
But, the suits—

Only in the most general way, leaving it to your creativity to find the best way to do so.

If there is one term that comes closest to describing what the suits are, it is

## Novelties

## Novelties

These are novelties of the latest moment, and the cry is for novelties---it seems an echo to the voice of the good Dame who rules the fashions.

It may be a novelty because it is a velvet suit, because it is fur-trimmed, because it shows an odd little vest, because of its Oriental trimmings, because of the very graceful and unusual draping of the skirt--the advertising pen has had no such task before this season, it outlines weakly the picture that you will see here.

These suits are from New York's **stalwarts** in the suit-making business, from those **men** who stand head and shoulders above the ordinary, who do things in a **successful** way. And, to make suits in this **fashion**, means that one must keep in touch with Paris.

The suits reflect Paris—they are copies of Paris models, others are adaptations, toned down a bit for American women. And so we revert to what we said above—

*This is the Most Impressive Display of Suits We Have Made So Far This Season*

and you are invited to make use of it to the end that your Fall suit shall be as smart and charming as, coming from this finest gathering of suits Atlanta has known, it could possibly be.

*The Price Range is Most Satisfactory--Beginning at \$25.00 It Goes Very Gradually to \$75.00*

## Medium-Sized Acreage Tracts

All of us know the profit that is usually made from acreage. It is almost a conceded fact that if a person owns good acreage, he has a sure profit in it sooner or later. When we think of acreage propositions we think of lots of land and naturally lots of money, because the acreage proposition involves a great deal of money. The demand for good, close-in acreage for subdivision purposes is increasing every day. A help in the solution of the city-in-suburban question just choose to take will convince you of this fact. We are offering a tract of about 100 acres in the center of East Lake, which we have cut up into five, ten and fifteen-acre tracts. The price and terms on these tracts make it possible for almost anybody to handle them.

Things to Look  
for in a Wife

Health Comes First: After That a Sense of Humor "Faculty," Liberality of Spirit, Sympathy and Lovefulness.

By DOROTHY DIX.

[illegible][illegible]

**You Don't Want a Selfish Wife, Nor a Critic on the Hearth.**

I should not want a selfish beast for a wife, one who would take the best of everything, and regard me as only good for her. I should not want a wife who would want a critic on the hearth. But if I found a girl who was bright and alive, the tenderest and most loving of beings, I should know by that sign alone that I'd be the wise guy if I refused to marry her. I should know that I'd be the wise guy if I refused to illuminate my own little hat.

Look for those qualities—beauty and good humor, and a lively, intelligent, and loving nature, and that loveableness I call "heart"—and you'll get the best of wives. —*W. F. M.*

of Jack London preaching the "other," of "forty-pardon power" he is an "arson!" And I have not heard it suggested that he has been taught by the Anti-Saloon League. The youths and young women who are not taken down upon him are simply making specimens of the rare, the goodly youth, sweet and square and sterner!" The young man who can out-work him, out-fence him, out-sell him, out-fight him—for the matter of that, out-drink him—has been entitled to be taken down upon Jack London. And he is the one who would not. This state archivist selling newspapers on the streets of San Francisco, this oyster pirate of San Francisco Bay, this big-limbed, sea hunter back from the Orient—

the Sicilian coast, this great thinking letterman who educates himself and makes a man of himself and is novelist, sociologist, thinker, and leaps to the top among the literary men of our time who possess creative genius—this big brother of our own with life-prize-fighter's jaw and philosopher's forehead, with his instincts of a cave-man and aspirations of a poet—is not one of the world's poor wretches whom the gods of Africa has a right to despise.

And it is Jack London who is

the avowed author of the most thoroughgoing and enthusiastic plea for prohibition issued within the memory of this generation. He declares that prohibition will hurt nobody—except a few toilers and seasoned drinkers. He declares that if the women kill the saloon the young men growing up will never miss it. They will know the saloon only in the pages of history, and they will think of the saloon as a quaint old custom similar to bun-baking and the burning of witches."
